1. The threat from Improvised Explosive Devices (IEDs) has been actively tackled by nations either affected directly by the threat internally or through their participation in expeditionary operations where the IED is a prevalent menace. Our dedication should be to better deal with the IED threat by providing responses capable of mitigating it. Considering all the above, NMIOTC will run the second iteration of the Course 14000 for 2018 that covers disposal of IEDs in the Maritime Environment.

2. NMIOTC has developed this course in accordance with NATO standards and guidelines aiming at mitigating the IED threat focusing mostly on the “Defeat the Device (DtD)” line of effort which is a critical supporting function necessary to preserve the Alliance will to minimize casualties. M-IEDD Course is focused on IEDD operational and tactical considerations (and the equipment required) when undertaking IEDD tasks in the Maritime Environment.

3. NMIOTC, in partnership with selected domain experts, has developed the **Maritime Improvised Explosive Device Disposal** Course with the two-fold intent of addressing operational gaps in dealing with these kind of devices and of improving the skills and knowledge of EOD personnel who operate in the Maritime Environment. This course sets out to provide participants with the skills and knowledge necessary to understand the concepts of M-IEDD operations and the practical skills needed to deal with the challenging scenarios that would be expected to test both EOD personnel and their Commands.

4. **Aim:** To educate and train EOD personnel to competently undertake M-IEDD operations onboard vessels and other maritime infrastructure. On completion of the Course, students will be able to:

a. Develop the IED threat awareness in the context of maritime related operations and how the basic principles of IEDD can be successfully integrated to task resolution;

b. Familiarize the core and specialist subject knowledge including specialist skills and render, safe techniques in support of M-IEDD;

c. Identify the significance of the related subjects of search and site exploitation (e.g. evidence preservation and collection, considerations during M-IEDD tasks);

d. Plan / conduct M-IEDD operations, including: task appreciation, appraisal of tactical considerations in respect of the operating environment, M-IEDD team make-up, required resources, access and requisite on-board actions;

5. **Target audience** for this course is naval and other EOD personnel, functioning as Military / Police EOD Team Commanders and Team Members or equivalent rated personnel who are involved in M-IEDD operations, which are potentially also related with C-IED in the Maritime Environment. Personnel from law enforcement agencies (Coast Guard, Maritime Police, etc.), personnel from military educational and training facilities and personnel who are involved in IEDD instruction are also eligible to participate.

**Prerequisite: this Course is addressed only to EOD qualified personnel.**

6. The Course will be conducted in English. Attendees should have the following standards of proficiency in English (as described / coded in STANAG 6001), Listening – Good (3), Speaking – Fair (2), Reading – Good (3) and Writing – Fair (2).

7. This Course is marked as “NATO Unclassified / Releasable to PfP (except Russia)/MD/ICI/PatG”. NMIOTC applies security arrangements and regulations according to NATO standards.

8. A draft agenda for this event is hereby attached as Enclosure 1. The final agenda will be included with the Joining Instructions in due time. Attendance of the participants is obligatory in order to be considered as “successful attendees”.
