31 May 2022

UPX “Underwater Post Blast Exploitation Training”

Underwater Post Blast Exploitation Training (UPX) was conducted from 23th to 27th of May 2022 at NMIOTC premises.

Training objective was to provide comprehensive knowledge in investigating maritime terrorism incidents. The training included Diving Operations and Technical Exploitation of detonated improvised explosive devices found in a maritime environment.

Sixteen trainees (16) from six (6) nations attended the course (Belgium, Canada, Greece The Netherlands, Romania and the United Kingdom).

Subject Matter Experts from the FBI’s Counter-IED Section (USA) and the UK Royal Navy’s Diving and Threat Exploitation Group provided support to the course as Instructors and Lecturers.
