SUBJECT: **INVITATION LETTER FOR COURSE 19000 “CYBER SECURITY ASPECTS WITHIN MARITIME OPERATIONS”, COP-CD-22104, 14 - 18 Nov 22.**

DATE: 29 Jul 2022

REFERENCE: NMIOTC Program of Work (NPOW) 2022

1. The Alliance has recognized cyberspace as a domain of operations in which NATO must defend itself as effectively as it does for all the other domains. This will improve NATO's ability to protect own forces and capabilities and conduct operations across these domains and maintain freedom of action and decision, at all circumstances. The impact of cyber security issues on the conduct of future maritime operations is emerging dramatically. Maritime operations are conducted by technology-intensive platforms, which today rely heavily on information systems. How will this dependence of Navy platforms affect their ability to maintain security at sea?

2. As it is stated at SACEUR'S Annual Guidance on Education, Training, Exercises and Evaluation, cyber threats can affect NATO's capabilities to effectively control Allied forces, impacting upon NATO's operational theatres and individual Allies. Consequently, cyber defence is considered as a critical component of Collective Defence. In addition, Cyber Defence in maritime environment is a training requirement as it is depicted from the 2022 Cyber Defence Operations Discipline Alignment Plan.

3. Under this vein NMIOTC is going to launch the course 19000 “Cyber Security Aspects within Maritime Operations”, a 5 day course from **14<sup>th</sup> to 18<sup>th</sup> of November 2022**, in order to address adequately the cyber risk for the maritime environment and to provide the basic principles, knowledge and framework for the maritime staff officers (operational planners and current ops) in order to apply cyber resilience together with situational awareness, consequence management, business continuity plan and risk management into the maritime operational realm.

4. The aim of this course is to provide a comprehensive knowledge to facilitate the understanding of the maritime cyber aspects, designed for operational planners and staff officers from tactical and operational level, without sufficient cyber operational background. On completion of the Course students will be able to:

- a. Understand cyber security aspects of maritime operations.
- b. Identify cyber security threats in maritime operations.
- c. Apply knowledge / skills / guidance in application of cyber resilience together with situational awareness, business continuity plan and risk management.

5. The target audience is the community of interest maritime personnel functioning as Staff Officers /operational planners, from tactical and operational NCS/NFS HQs, individual NATO Naval Forces, members of NATO response Force (NRF), Enhanced NATO Response Force (eNRF) without dedicated (specialized) cyber security operational background. Personnel from NATO members Joint Commands and other related Agencies (Coast Guard, Port Police, etc.), educational and training facilities and equivalent civilian personnel from relevant governments / agencies involved in Maritime Security Operations are also eligible to participate.
6. The course will be conducted in English. Attendees should have the following standards of proficiency in English (as described / coded in STANAG 6001), Listening – Professional (3), Speaking – Professional (3), Reading – Professional (3) and Writing – Professional (3) (SLP3333).
7. This is a NATO ACT approved course, classified as “**NATO Restricted**”. NMIOTC applies security arrangements and regulations according to NATO standards.
8. A draft agenda for this event is hereby attached as Enclosure 1. The final agenda will be included with the Joining Instructions which will be released in due course. Attendance of the participants is obligatory in order to be considered as “successful attendees”. In order to pass the course and acquire the relevant certificate, participant at least 85% of the modules of the course.
9. The course will start on **Monday, 14 November and will end on Friday, 18 November 2022**, training hours are from 08:30 to 15:00 daily. Due to the fact that the course will be running with the cooperation of external augmenters (SHAPE J6 Cyber/SHAPE J2/ CYOC/ MARCOM) and academia (University of Derby, Technical University of Crete), the execution of the Course is subject to the achievement of the minimum number of participations. Comprehensive administrative instructions are provided at Enclosure 2.
10. The tuition fee for the course is **480,00€**. Payment procedures as paragraph 4 of Enclosure 2.
11. With the current COVID-19 situation, due to the Greek de-escalation plan and the preventive and protective measures that have been implemented, it is been determined that it is possible to execute this course. When registration closes, we will evaluate if this is still valid. Delegates who are registered will be updated by e-mail regarding any measures towards COVID-19 that must be undertaken, which may include cancellation of the course.
12. For organizational purposes, candidates are kindly requested to register by submitting the application form <https://nmiotc.nato.int/join-us/individual-application-form/> or saving it as a .pdf file and send it to [studenadmin@nmiotc.nato.int](mailto:studenadmin@nmiotc.nato.int) no later than **(NLT) Friday 14<sup>th</sup> October 22**.
13. Event details can be found in the Education and Training On-line Catalogue (ETOC) at <https://e-itep.act.nato.int/Guest/ETOCindex.aspx> (COP-CD-22104) or through the NMIOTC official web site <https://nmiotc.nato.int/education-training/resident-courses/courses-catalogue/>.
