

News Release: 49/2022

29 September 2022

6th NMIOTC Cyber Security Conference

From 27th to 28th September 2022, the 6th NMIOTC Cyber Security Conference in maritime domain took place at the NMIOTC premises.

The Conference, one of the major annual events organized by NMIOTC, was attended by more than 100 participants from 21 Allied and Partner Nations, coming from military and civilian establishments, representing International Organizations, academic community, shipping and defense industry.

The Deputy Chief of the Hellenic National Defence General Staff, Vice Admiral Ioannis Drymoussis and Dr Athanasios Drougas from ENISA participated in the event as keynote speakers.

The aim of the Conference was to encourage participation in discussions regarding cyber security in the maritime domain and cyber defense operations, in a collaborative environment, towards tackling cyber security issues in a holistic and comprehensive way.
